

# MEHRSHAD KHATIBI

Front-end developer

+989925936384 khatibimehrshad24@gmail.com <https://github.com/lmehrshad>

## ABOUT ME

Front-end developer focused on creating user-first, responsive, and high-performance interfaces using React and Next.js. Passionate about continuous learning, I enjoy exploring modern rendering approaches like SSG, SSR, and CSR, and applying them to build efficient, scalable, and maintainable web applications. Always eager to improve my skills, I strive to deliver seamless user experiences and stay up to date with the latest front-end technologies.

## EDUCATION

October 2019 Associate Degree in Industrial Accounting  
University of Applied Science and Technology (UAST), Iran

## EXPERIENCE

2024 Apr -2025 Sep Front-end developer  
Karo company  
Karo is a development company where I build and maintain user-friendly web applications using React and Next.js. I focus on optimizing performance, improving code readability, and creating scalable, maintainable solutions with SSG, SSR, and CSR.

- React
- Next.js
- TypeScript
- Tailwind CSS
- Redux
- Zustand
- React Query
- React Hook Form
- Framer Motion
- ShadCN UI
- Git
- JavaScript (ES6+)
- Formik

## PROJECTS

**Yolpak Dashboard**  
A package delivery system in Turkey that streamlines logistics and tracking. Built with modern front-end technologies for a responsive and user-friendly experience.  
<https://yolpakb.shinyapi.net/>

**Prop360**  
A real estate platform where investors can find builders on an interactive map, with all key information highlighted for informed decisions.  
<https://prop.shinyapi.net/>

**Immimatch**  
A platform connecting lawyers and applicants for immigration cases. Lawyers can submit cases, and applicants can find the most suitable options efficiently.
